TC 1000

High Performance Cutter

SIMPLA - TC 1000

developed to link Digital Printers
and to work "stand-alone"

- ✓ High speed, up to 20.000 cuts per hour
- ✓ Base on wheels with blocking device
- ✓ Height adjustment paper level device

Main features include:

- » Unique cartridge design: the cross blade cartridges and the side trimming cartridges are removable and interchangeable for quick and easy on site maintenance and for quick application changeover.
- » Oscillating cross blade cartridge with high precision (1/96") and high durability.
- » Vertical cross blade cartridge (3 blades system) for single stroke 1/6" strip cut.
- » Vertical cross blade cartridge (3 blades system) for single stroke 7,8 mm strip cut.

- » Paper loop interface for direct connection to laser printers.
- » Up to 99 cutting program memory.
- » Display and keyboard for programming, information, service.

Global service and around-the-clock support help ensure our reputation as the industry's reliability leader. Our products increase productivity, cut labor and paper costs, and even make new applications possible - Tecna solutions truly empower digital print to help you do more with less.
