OUR SOFTWARE PRODUCTS

BOWE IQ offers smart and flexible IoT solutions for the entire length of the internal value added chain. All of our software solutions share a common goal: to make complex and demanding tasks simpler and more efficient. The portfolio of BOWE IQ, the software experts, extends from controlling BOWE systems, through modern mailroom management as well as Track & Trace solutions up to integration solutions or Warehouse Management (WMS) & Warehouse Control Systems (WCS). The consistent aim is to deliver a positive user experience in the form of intuitive operation – on highest safety and security levels. Take advantage of our high-performance IoT solutions backed up by years of experience that you can rely on.

IOT SOFTWARE SOLUTIONS FOR YOUR INDUSTRY

Globalization and digitization are transforming both the world and business. They are leading to new products, altered processes and are generating new business models. This imposes increased demands on software. BOWE IQ offers smart and flexible IoT business solutions for the entire process chain to ensure that you are ready for the production and logistics of tomorrow.

CENTRAL & INTUITIVE MACHINE CONTROL

Efficiency matters. Flexible control software from BOWE IQ ensures that all our BOWE SYSTEC and BOWE INTRALOGISTICS systems are intuitive to operate and simple to set up.

PROCESS OPTIMIZATION & CONTROL: WMS & WCS

Warehouse Management Systems (WMS) & Warehouse Control Systems (WCS) customized for your industry create transparency and optimal processes in your logistics chain, whether individually or pre-configured, installed on site or cloud-based.

BOWE 4.0 INTEGRATION SOLUTIONS

Move forward with the IoT platform for the integration and networking of Smart Factory automation solutions such as robots or AGVs.

ORBITER SMART SOFTWARE PLATFORM

The Orbiter software platform makes machine and production control child's play, with simple to operate and transparent apps.

BOWE ONE: NETWORKED MAILROOM MANAGEMENT

Take advantage of the benefits of networked production with BOWE One and optimize the processes in your mail production center on system and site level using precise, real-time data.

TRACK & TRACE SOLUTIONS

Knowing where everything is at all times with BOWE IQ. Whether serialization, shipment and product tracking or Asset Tracking & Asset Management – as a Track & Trace specialist with over 30 years of experience you can rely on us.

BOWE MANUFACTURING: THE MANUFACTURING EXECUTION SYSTEM

The Manufacturing Execution System (MES) BOWE Manufacturing from BOWE IQ puts an end to production stops.
